Re: Letter of Reference for Tampa Contracting Services

To whom it may concern:

ESA Scheda was hired by the City of Holmes Beach to obtain regulatory permits and conduct environmental Construction Environment Inspections (CEI) for the Grassy Point Boardwalk Project. Tampa Contracting Services (TCS) was the selected contractor. The project entailed the construction of 110 linear feet of boardwalk through estuarine marsh, 70 linear feet of shell path, and then an additional 218 linear feet of boardwalk through mangroves that would lead to a future observation deck. All of the work was done in environmentally sensitive areas. TCS did an excellent job constructing the boardwalk and minimizing any environmental impacts. The total cost of the project was \$181, 226.00 and was completed within budget and within the specified time frame which was October 2016 thru January 1, 2017.

I would highly recommend TCS as a contractor. If you have any questions or require additional information, please contact me at the letterhead address.

Sincerely,

ESA SCHEDA
